

ATTENTION WATER USERS - Help stop the Invasion!

Invasive aquatic plants and animals harm our wildlife and block waterways.

Protect and enjoy your natural environment by remembering to:

CHECK

Check your equipment, boat, and clothing after leaving the water for mud, aquatic animals, or plant material. Remove anything you find and leave it at the site.

CLEAN

Clean everything thoroughly as soon as you can paying attention to areas that are damp and hard to inspect. Use hot water (at least 45°C) or a high-pressure spray.

DRY

Dry everything until it is dry for at least 48 hours before using elsewhere as some invasive plants and animals can survive for weeks in damp conditions.

Disinfect everything if complete drying is not possible.

STOP THE SPREAD
