

# Stop the Spread of Invasive Species

Invasive plants and animals harm our wildlife and environments. They can cause disease, block waterways, interfere with fishing and damage boats. Please stop their spread by following the **Check Clean Dry** code.

## Protect the environment and sport you enjoy!

Remember to check these places

**Check** your equipment, boat, and clothing after leaving the water for mud, aquatic animals or plant material.

**Clean** everything thoroughly as soon as you can. Pay attention to areas that are damp or hard to access.

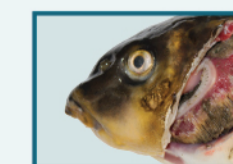

**Dry** everything for as long as you can before using elsewhere. Some invasive species can survive for over two weeks in damp conditions.
